LAST EDITION.

THE WORLD'S FAIR BATTLE.

The War Transferred to the House of Representatives Today.

Chicago's Chances; Governor Hill Signs the New York Bill.

WASHINGTON, Feb. 20.—The great battle for the location of the World's fair begins in earnest in the house of representatives today, and the lobby has been reinforced by the arrival of numerous contingents from Chicago, New York and St. Louis. According to the terms of the agreement as ratified by the house today and tomorrow will be devoted to debate upon the availability of the various localities that are in the race, and on Monday the members will convene to vote, continuing until one of the cities has received a clear majority. There seems very little foundation for the statement that in the event of New York and St. Louis failing to secure the necessary support those favoring these cities will combine to lay the whole matter on the table, in other words vote to have no fair at all.

The demand for a commemoration of the discovery of America by Columbus has been so general, coming from all classes and creeds and professions, from the millionaire and the artisan, that it is not considered as a matter of probability that any considerable portion of the membership would dare to ignore it. There are, it is true, about fifty members mostly from the South, who are willing to brave public opinion; but many of these are likely to bear from their constituents between today and Monday.

Chicago's chances are considered to be better than ever, but the New Yorkers are sanguine and count materially upon the aid of the St. Louis contingent if it found that the latter city has no earthly show.

In view of this liberal policy it is not surprising that the socialists expect to send a larger contingent to the fair than they have ever done before. In the last body they were represented by eleven members.

ALBANY, Feb. 20.—Governor Hill signed the World's fair today.

Sign the Bill.

ALBANY, Feb. 20.—Governor Hill signed the World's fair today.

CARNEGIE'S GIFT.

The New Allegheny Library is Formally Opened Today.

PITTSBURGH, Pa., Feb. 20.—President Harrison will be the central figure to-night at the ceremonies incidental upon the formal opening of the free library which has been presented to the city of Allegheny by Mr. Andrew Carnegie. The chief executive will arrive here about noon, and after a short rest will hold a public reception in the court house. He will be the special guest of the Duquesne club.

The ceremonies tonight will take place in the Allegheny Music hall, before an audience expected to number 1,000. The key will be handed by the donor to Mayor Richard S. Pearson, and the speakers will include President Harrison, Private Secretary Halford, Governor Beaver and Congressman Bayne and Dallen.

This is the second free library presented by Carnegie to an American community. The other is at Bradwood. The second one is an imposing structure, located opposite the city hall, in the business section of the town. It has cost \$250,000, and is presented to the city free from conditions except that it shall be maintained for the benefit of the people for all time to come.

President Harrison rose early this morning, and after breakfast at the Duquesne club, visited the Homestead Steel Rail mills and other points of interest under the guidance of Andrew Carnegie. This evening the Carnegie Free Library will be dedicated by the President. Immediately after the ceremonies the President and party will take the train for home.

TWO HARBORS

To Celebrate St. Patrick's Day; An Excursion to Duluth; Notes.

A number of prominent Irish-American citizens met at the residence of Foreman Griffin to make arrangements to celebrate St. Patrick's day. They will try and secure the services of some noted speaker. The citizens of Two Harbors will be pleased to co-operate in any way in this matter.

An excursion to Duluth on Friday evening will be given by the Iron Range people who desire to attend the opera. The Bostonians are on the board.

W. H. Coggeshall was given a hearing before Justice McIntire and Fred B. and costs, and to make good the draft given by him on Burrows & Co. of Duluth. He says he will make complaint to Prosecutors Attorney Sherwood to have the gamblers who fleeced him arrested.

M. Streeter was the lucky winner of a fine consignment of raffles at the Two Harbors house.

Frank E. Duncan is busy collecting the water tax, though there is a good deal of kicking by the taxpayers.

K. Stewart says he is not a candidate for office at the village election. He says that those he elected would have him in time. No man would seek political consideration who fails to live up to this standard. Mr. Stewart, though almost a stranger to the village, was regarded very creditably, and now that he has become better acquainted with the wants of the growing village we regret to see him decline.

The ladies of the Presbyterian church will give a social at Dr. Budd's residence Friday.

Charles McComber has gone to Mead to take charge of an engine at the Mill man mine.

ELECTIONS IN GERMANY.

The Socialists Candidate of Returning a Larger Number of Candidates Than Ever.

BERLIN, Feb. 20.—The election for members of the Reichstag is in progress today and the indications are that to-night Prince Bismarck will be any thing but an unbroken frame of mind, everything points to large socialist gains.

The campaign has been a quiet one, and thanks to the influence of the superior. The socialists for the first time in many years have been allowed to pursue their campaign without molestation by the police. No police spies have been permitted to attend their meetings, and all their gatherings have been held with open doors. Even in Saxony, the Rhine provinces and the West phalia district where the working classes are in large majority and extreme sentiments prevail, Bismarck and other extremists have been allowed to indulge in their least barangues without let or hindrance.

In view of this liberal policy it is not surprising that the socialists expect to send a larger contingent to the Reichstag than they have ever done before. In the last body they were represented by eleven members.

In the next which will be convened in about three weeks, they expect to have fifty-one. Some of these they expect to get from the conservatives, but the large majority from the national liberals. Should they succeed in this, however, they will be able, with the support that they can command from the liberals and the center, to outvote the government groups.

In this event it is not likely that the Iron Chancellor will repeat his attempt to force the socialist bill through the new chamber. It is a critical day both for Bismarck and the socialists as in the present liberal temper of the Emperor it will determine whether, in spite of all the suppression and restriction of recent years, the star of the one is not on the wane and that of the other on the ascendancy.

Later. The size of the vote polled today was phenomenal. The election officials have been overwhelmed with work and at many of the polling places were unable to cope with the crowds of electors who, during the dinner hour, hastened to deposit their votes. A majority of the factories were closed during the day. Many conservatives voted for the socialists in order to spite Herr Vichow.

A great sensation was created here at 1 o'clock this afternoon by the sudden receipt of an order from the Emperor for all troops comprising the garrison of the city to march to Kreuzburg forthwith. The order was instantly complied with. People were almost panic stricken until it was announced that the maneuver was simply one of the military surprises inaugurated by the Emperor to test the efficiency of the garrison.

RESUMED ITS COURSE.

Great Banquets and Dances on Board the Chicago.

PARIS, Feb. 20.—The American squadron of evolution which has been lying over at Villefrance, in the harbor of Nice, for nearly two weeks, resumed its course today. In the interval numerous parties had been exchanged with the French fleet, Admiral Thourans banqueting Rear-Admiral Walker and the American officers, and the latter gave a series of receptions and dances on board the Chicago.

It is said that less than three of the American officers have lost their hearts to as many of the fair belles of Nice.

DEATH IN THE MINES.

Three Deaths in the Famous Silver Mines of Aspen, Colo.

ASPER, Colo., Feb. 20.—Shortly after midnight, while Martin and Hugh Trainard, brothers, were working in the Mollie-Gibson mine, the scaffold upon which they were standing gave way, both men falling to the bottom of the shaft, a distance of 100 feet. Both were instantly killed. About the same hour James Lyons, miner, working in the Homestead mine was instantly killed, his brains being knocked out by a piece of rock falling 100 feet and striking him upon the head.

MORE RAILWAY LINES

To Build a Line From Sioux Falls Westward: The Huron & Denver.

PIERRE, S. D., Feb. 20.—At a meeting today a contract was made between General Manager George M. Nix of the Midland Pacific, in behalf of that company and the Pierre board of trade, whereby the company is to build a road from Sioux Falls to Pierre, west to be completed in 1891.

The road will be a surveying party from Pierre and another from Sioux Falls and the two parties will meet at Pierre by next winter. The road is now built out eight miles from Sioux Falls. A road is already surveyed from Pierre to the Pacific coast.

A Church Destroyed.

ALBANY, N. Y., Feb. 20.—St. John's Roman Catholic church of Green Bush, burned today, the fire catching from a stove. The church, which was valued at \$100,000, was completely lost. Damage, \$75,000; insurance, \$25,000.

AN ELECTRIC SYSTEM.

To Equip a Very Complete Electric System of Street Cars.

The Close of 1890 Promised to Show Great Changes Here.

The announcement made last night in The Pioneer Press of the intention of the Duluth Street Railway company of putting electricity on the lines, was learned and verified at the office of the company too late to allow for extended mention or to admit of the publication of much more matter of interest.

Speaking of the new lines in the Twin cities, The Pioneer Press of this morning states that the old cars and equipment of St. Paul will be transferred to Duluth for use here.

The following telegram from Minneapolis contradicting these statements of The Pioneer Press was received this morning by The Herald:

"The statements made in The Pioneer Press are absolutely false. No equipment will be used in Duluth except new and the best."

Meers, Hill and Wilson are leading stockholders in the Duluth company and also a very large stockholder corroborates their denial.

Now as to work. The company states that in addition to the Superior street line mentioned in The Herald yesterday as to be changed to electric line, it will put in a complete electric system running out extensive additions, all of which, except where it may be found impossible, it will equip with the overhead trolley system. Already contracts are being entered into and purchases planned, and by the close of 1890 the company promises that it will be in such condition that there can be no excuse for complaint.

BLOOD FOR BLOOD.

Three Brutal Murders Explains Their Crimes on the Seaside.

PHILADELPHIA, Pa., Feb. 20.—Jacob Schoop and Thomas J. Cole were hanged together in Moyamensing prison this morning. The drop fell at 10:01 o'clock. Schoop was hanged for the murder of Anton Schilling and Cole for the murder of Walter McAllister.

Three of the four men were premeditated and carried out in cold blood. Schoop was especially atrocious. On Dec. 2, 1888, some five years ago, he numbered victims of a man tied up in two bags, hid away in a water pipe. The crime was traced to Schoop. Schilling was his assistant in his hideout. Schoop acknowledged his guilt, saying that on Christmas morning he had knocked Schilling down with his fist during a quarrel. Supposing him dead he struck him with a hatchet to make the job sure. Schoop tried to disguise the fact that he had not quarreled with his victim, but had deliberately murdered Schilling in order to obtain \$200 which the latter had saved up from his work as a laborer in the crime. Schoop's wife was implicated in the crime. She had urged him to his commission, but she became insane and died in the state insane hospital.

Cole and McAllister, who roomed together, had been on bad terms for some time previous to the tragedy. The former, charged the latter with having caused him to lose his employment. This was due to the fact that Cole's loss of employment having been due to his habits. McAllister was a young man residing at the time in the city. He was the murder Cole drank considerable liquor and his mind becoming inflamed, he resolved to kill him. McAllister, who worked at night, was asleep and Cole, arming himself with a hatchet, crept noiselessly upstairs and struck the sleeping man with a stunning blow, chopping his victim's head in a shocking manner.

Killed His Wife and Her Mother.

BRAZIL, Ind., Feb. 20.—William Seely Hopkins was hanged here this morning for the murder of his wife and mother-in-law. The drop fell the first time at 10:15. There have been two condemned men was again fastened up.

His crime was one of the most up feeling ever chronicled. He was 29 years old last July. He had married Maggie Wiganen. For a year they lived happily, but Hopkins became jealous and left his wife, who returned to her home. On Sunday, Sept. 22, 1888, he went to the Wiganen house and deliberately shot his wife and her mother dead. Then running from the house he fired two shots at his own head, but only inflicted a slight flesh wound. In November last he was found guilty. Hopkins has displayed an almost unprecedented nerve. Never at any time has he shown the least regret or any fear of the consequences of his crime.

Peaks of Lightning.

BRAZIL, Ind., Feb. 20.—A fearful hail and lightning storm prevailed for several hours here and in adjoining counties yesterday afternoon. John Decker's frame residence near this town was struck by lightning. The current first passed down a stovepipe, completely shattering the stove; then, crossing the floor, on which Mrs. Decker and Miss Florence Ball were standing, it tore the shoes from their feet and paralyzed their legs. Their feet have since blackened and burst and are badly lacerated. The girl is seriously injured and the house is badly wrecked.

Regarded With Suspicion.

BENSON, Minn., Feb. 20.—A transfer was placed on record in this county transferring to the Duluth & Southwestern railroad all the property and franchises of the Duluth & Huron & Douvan, which consists of a partially completed road, running from Sauk Centre southwest to the western line of the state. Nothing has ever been paid for this work, and the creditors believe the transfer is not bonafide but that the new company is composed of the old crowd and the move is made to freeze out the creditors.

Ten Pond du Lac lots, mostly on Second street, for sale below the market if taken at once. Inquire 115 West Superior street.

A FEARFUL SUICIDE.

A Duluth Man Drinks Clear Carbolic Acid and Dies.

While evidently temporarily insane John Haug this morning committed suicide by drinking two ounces of carbolic acid. For some time past, being despondent over some small losses, he had been drinking heavily, and last night had been taken home by his brother, Matthias Haug, who sat up with him all night.

This morning at 6:45 Mr. Haug went out to the barn, leaving his brother alone. He had hardly been there five minutes before he heard his brother's wife scream, and she came rushing to the barn, crying out that her husband had taken poison. Mr. Haug hurried into the house, only to find his brother dead.

After Matthias Haug had gone to the barn John left his room, and in a few moments entered his wife's bedroom, throwing an empty bottle on the bed with the remark: "I've taken something that will fix me." He then affectionately kissed his wife, and fell back on the bed, and she came rushing to the barn, crying out that her husband had taken poison. Mr. Haug hurried into the house, only to find his brother dead.

John Haug was born in Germany forty-seven years ago. For the past twenty years he has lived in Duluth and has been with his brother Matthias Haug in the wood and coal business. He is fairly well to do. He was a man of generous impulses, and has many friends who are horrified and saddened by his death. He leaves a wife and one child. The funeral will take place Saturday afternoon.

THE JURY DISCHARGED.

The Long January Term Drawing to a Close.

The pleasant face of Hon. Ira M. Mills of Moorhead, judge of the Thirteenth district, appeared at the court house this morning. The judge was called here to sit on two cases, in which Judges Stearns and Ensign were interested. The first was that of A. C. Bateclor vs. The Duluth Roller Mill company. Judge Mills ordered it continued for the term on request of both parties.

Duluth Chamber of Commerce vs. H. C. Kendall was then tried, but the defendant being absent the court instructed the jury to bring in a verdict for the plaintiff for \$153.25, which they did without leaving their seats. A 60-day stay was granted.

Judge Mills then briefly addressed the jury, thanking them in behalf of all the judges for their faithful attention to the somewhat arduous duties of the long term from Jan. 6. He then discharged the jury. Sheriff Shury then adjourned that branch of the district court sine die.

BLOCKED AGAIN.

The Central Pacific Road Again Blocked by Snow.

SAN FRANCISCO, Cal., Feb. 20.—Reports from points on the Central Pacific overland lines from Colfax to Truckee show that another snow storm prevailed in the Sierra mountains Tuesday night. The train due here Tuesday morning and that due last night came in about midnight, having been consolidated in the morning.

The morning train due yesterday was at Truckee at noon. Yesterday's eastern train was consolidated at Sacramento. This practice will be followed until the storm abates. Yesterday's goods train was despatched over the Santa Fe route and the westbound mails have been ordered sent to California over that road until the storm ceases.

THE BILLIARD TOURNAMENT.

Interested Ones Not Only From Near States, But From the West and South.

NEW YORK, Feb. 20.—The big billiard tournament opens tonight at Chickering hall, and hundreds of admirers of the game are here, not only from near by states, but also from many points in the South and West.

The players are Schaefer, Slosson, Daly, Heiser, Cotton and Ives, and the games will last until March 1, nine games in the afternoon and six o' nights.

The practice work of the men, while giving an idea of the form in which they are playing, has failed to give any definite idea of the ultimate result of the tournament. Schaefer has, however, never played in better form, but Ives has im proved steadily since his arrival and is the choice of many for first or second place.

NEARLY ALL GONE.

Almost an Entire Family Killed by Fire in Kingston.

KINGSTON, Ont., Feb. 20.—Fire broke out in a dwelling occupied by Gen. Lester and family.

When the firemen entered they found four children dead in bed. The bodies were not much burned, death having been caused by suffocation. Mrs. Lester, after vain efforts to rescue her children, jumped from the second-story window with a babe in her arms. Her leg was broken by the fall, but the baby was uninjured. Mr. Lester also made heroic efforts to save the children, and only left the building after he had been so severely burned that he will probably die. The family numbered seven children in all, three of whom were rescued after being more or less burned.

Three Sentenced.

BALTIMORE, Md., Feb. 20.—The Navassa "rioters" were sentenced this forenoon. Geo. S. Day, Henry Jones and Edward Smith, convicted of murder, were sentenced to be hanged March 28. The fourteen men tried upon charges of manslaughter and convicted, were sentenced to terms in the Albany, (N. Y.) penitentiary ranging from two to ten years.

Made a Mistake and Admit It.

CHICAGO, Feb. 20.—The police today are almost ready to admit that they have made a mistake as to the identity of Kelly, who arrived here from St. Louis last night, and who was supposed to be the much wanted individual who drove Dr. Cronin to the Carlson cottage. Kelly himself is very cheerful.

TO VICTORS, SPOILS.

Prospects of Coming Changes in the City's Official Pay Rolls.

A Complete Reorganization of the Local Board of Health.

Departments Where Changes Are Sure or Are Looked for.

As the time draws near for the incoming administration to take the reins there is more or less apprehension among city officials as to where the demarcation line may fall.

Chief Doran has fortified himself for the worst. There is an air of gentle resignation about the chief which intimates that if he receives his walking papers it will not be an unexpected shock to his nervous system. As predicted in the Herald a couple of weeks ago, Sam McQuade will likely be the next head of the police force. There are those who say, however, that he does not bicker for the job. Mr. McQuade has not publicly expressed himself either way. Harry Armstrong has numerous friends who are pushing him for this position. And while the aldermen are of that non-committal nature, it is intimated that he would be willing to serve in the capacity of chief of police. Alfred Gillon, too, it is openly said, would not object to wearing the silver star, and he has backing. Then there are others who would not object to being Paul's successor, Sam Thompson and Serg. Clements being on the list.

Captain of Police McLaughlin is accumulating himself to a probable retirement by wearing citizens' clothes. If he goes he will be succeeded by some good man from the ranks. McLaughlin is the oldest man on the force, is a brave and efficient officer and his dismissal will cause considerable regret among his friends and members of the police force, as well as a great many of the leading business men of the city. Detective Benson doesn't see why he should be fired, but he probably will be, though he has friends in the council.

In regard to the city clerk while there are several aspirants for Budden's chair it is believed he has such a hold on the affections of the aldermen he would be a difficult man to dislodge. Charlie has held down this office through thick and thin for the past nine years and while this undoubtedly greatly increases his efficiency there are not wanting those who think he has been there long enough. It is more than probable that Budden will be retained, for he is a first class walking encyclopedia of city matters and knows the ordinances by heart.

N. A. Gerhart is spoken of in connection with this office, and though he says he has never asked for the office, yet he probably would not refuse it if offered. Frank Burke, too, is believed to have cast sheep's eyes on the clerk's office, although he disclaims the imputation. Phil Westaway's term as member of the board of works is out and Phil will possibly be required to step down. His successor will probably be Colly Smith. It is probable that Phil will fill some other capacity in the city.

In the board of health department the work of sanitary reform will be exemplified. It is now more than probable that the board will be entirely reorganized on a new and better, as well as on an economical basis. Dr. Sherwin will have to go and the physician who has been likely to be Dr. Penkin. In the inspector's department only the men will be retained who have shown themselves active and energetic in the discharge of their duties.

City Engineer Fuller grows fat and apparently does not worry about the future, though several aldermen are gunning for him. It is hinted that there may be changes in this department, but if there are any wires being laid for Fuller's removal they are all underground. There may be some changes in the fire commissioners; nothing can be prophesied with any certainty with this department, but there will undoubtedly be an infusion of new blood and Chief Hefey may well look sharp.

Building Inspector Shanley will succeed himself, if he has the chance. Shanley is perhaps one of the most competent men that could be selected for this position. He is a practical builder, and is regarded among builders as an expert. That he is a democrat may operate against him, though that will probably make little difference. The general feeling evidenced among the present incumbents whose positions are insecure is that "to the victor belong the spoils," and they are prepared for the worst.

The Lower Court.
A freebooter was a badly demoralized drunk at the police court yesterday. He was assessed \$5, which he paid. Weekoff Smith and Arthur Bobok were up on the charges of being drunk. The Wm. Butcher and Mary Lynch, the assault was committed on Walter Butchart and John Lynch, two boys aged respectively 3 and 11 years. The nature of the offense is disgusting and the guilty ones will doubtless be severely dealt with.

Up to Hear the Opera.
Mr. W. W. Bliss of the St. Paul & Duluth road brought up this morning a party of ladies from the capital city to witness the production of "Suzette" this evening at Temple Opera by the Bostonians. The party consisted of Mrs. A. E. Bates and Miss Howe of St. Paul, Miss McKinley, Miss Belle McKinley, Miss Hale and Victor Robinson of Chicago.

Find Lots of Sand.
The testing on this side of the canal of the nature of the ground for foundation purposes is completed. A depth of sixty-seven feet has been reached. To a depth of nineteen feet there is gravel and hard pan. The remaining forty-eight feet is drilled through pure sand. Assistant City Engineer Reid is conducting this work and began drilling on the other side of the canal today.

Dinner Concert Company.
Mrs. Beaulieu, Miss French, Mr. Edgar L. Fra and Mr. Frank Horne left yesterday for Tower, where they will give a series of concert evenings for three nights. Miss Sloan, a Columbus, Ohio, eleventh of high reputation accompanied them.

Far Too Many Dogs.
The small child of Wm. Miller, who lives on Lake avenue south, was terribly bitten by a fierce dog this morning. The little one was playing on the street when the dog attacked him and bit him under the eye, inflicting a fearful wound. The dog got away.

WEST-BOUND RATES.

A Change Now Made. Several General Freight Notes.
The war in west-bound rates has not been without effect in relation to Duluth. The Canada Atlantic has issued a reduced tariff on rates from New York to Duluth. The following will go into effect Feb. 21st: First class, 40 cents; second, 35 cents; third, 30 cents; fourth, 25 cents; fifth, 20 cents; sixth, 15 cents. The present rates are: First, \$1.05; second, 92 cents; third, 74 cents; fourth, 42 cents; fifth, 41 cents; sixth, 35 cents. In view of the present state of the disturbance of rates to points even beyond the Missouri river, it is probable that the reduction by the Canada Atlantic will go still lower.

"It is impossible to say what will take place this winter in rate reductions," said Mr. William Orr, general freight agent of the South Shore. "Mr. Jim Hill practically controls the rates via the lakes from the East, and the railroad routes are obliged to meet this competition. Mr. Hill was not represented at the recent meeting called for the purpose of establishing a permanent basis of rates between rail and lake lines, and it looks as though the same low rates would prevail this summer that obtained last season."

Railroad Notes.
The South Shore train did not reach this city until 10 o'clock this morning. Last night's storm was the cause. Duluth roads are represented at the meeting of Chicago of the passenger agents of the Western lines, who are arranging for summer excursion tariffs. It has been decided to give half fare rates to those desiring to attend the biennial Knights of Pythias convocation at Milwaukee.

It is now practically decided that the Omaha will put on its vestibule train some time next month. Passenger agents in session yesterday at Chicago, agreed on a low basis of excursion rates for Western and North-western points for this spring and summer.

Word has been received here that A. C. Kaseberg, formerly of the West End but now of Valley City, N. D., has been turned out, and that his loss is severe. His friends here will sympathize with him.

Arthur Morrison was at Clouet yesterday on a short business trip. W. J. Cressley, the wall paper man, has returned from Chicago, where he had been on a business trip.

Chas. Maurer, who went to Prescott, Wis., with the body of his wife, is lying very ill at that place. He was not in good health when he left this city.

SEVERAL BUILDINGS.
Some of the Building going on in the Cold of Winter.

P. L. Young is getting out the plans for a residence at Croley Park for Messrs. LeTureau and McFadden. These will be built on block 25, and will cost about \$200 each. Work on both houses will commence next week.

J. C. Schaefer, whose house at Lester Park was burned down a few weeks ago and rebuilt at once, costing about \$3500. Mr. Young is finishing plans for the remodeling of the Kelly building on West Superior street, owned by D. G. Cash. This building will undergo many extensive improvements, not the least of which will be the entire front being replaced by a new one, and the large plate glass windows. An archway will be cut and Kelly & Co. will occupy the whole building. The structure will be remodelled throughout, new floors put in, etc.

The Coulter house at 1121, East Second street, is also being remodelled. About \$2000 will be expended for this purpose. A retaining wall will be built in front, and a stone foundation put under the house. The building will be fitted throughout with hot water heating apparatus, and an extensive addition built.

For sale, a nice lot in Macfarlane's Grassy Point addition at a little below the market price if taken at once. Apply 115 West Superior street.

Don't forget the concert and New England supper at Knights of Labor hall tonight.

Big Snap on Second Street.
We have 100 feet on the upper side of Second side in Endion at \$240, 1/2 cash, balance one and two years. This offer is only good for this week.

D. H. STEVENSON & Co., 43 Exchange building.

Every house in Duluth should have a Webster's Dictionary. See unexampled bargain in The Herald today.

The Herald bender can turn out heavy ledgers, etc., just as you want them, and do the work for you promptly.

For bargains in bedroom suits, center tables, sideboard and hall trees go to Bloedel & Ebeling, Old Fellows building, Lake avenue north.

Everybody wants those sterling reference books—a Standard dictionary and encyclopedia. See Herald premium offer.

Owners of property in Third and that part of Bay Front division, clouded by the Prefecture claim wishing to have their property represented in the action about to be brought against Frederick Prefecture, must hand in their list and subscribe their name within ten days from date hereof.

Snively & Craig and Greene will be in their office, 20 and 301 First National Bank building, from 7 o'clock until 9 o'clock during every evening of this and the following week, affording an opportunity to those busily engaged during the day to give their attention to this matter during the evenings.

Feb. 6, 1890.

M. R. BALDWIN, G. M. HARTLEY, L. M. WILCOX, Committee.

For Sale.
Lots 109, 171, 173, 202, 204 and 272, Minnesota avenue, Lower Duluth, Minnesota Point.
Lots 73 and 74, St. Louis avenue, Lower Duluth, water front.
Lot 283, block 128, Second division.
Lots 102 and 104, block 9, Third division, Superior street, \$12,000.
Room 7, Phoenix block.

Commercial binding and printing received accurate and prompt attention at The Herald Job Rooms.

Acres at Fond du Lac.
Some bargains below the market, if taken at once.
D. W. SCOTT, 401 First National bank building.

THE FURNITURE FACTORY

Probability That the West End Will Have Its New Factory.

Beginning of the Year's Building Boom Already Set in.

Some two years ago several business men of the West End organized to build and operate a furniture factory but for some reason the project was given up. The reason was not because they thought it would not be feasible or profitable. The plan, however, has not fallen through. The project is being revived with even greater interest and gives promise of materializing. There can be no doubt concerning its feasibility. There is plenty of hardwood in and around Duluth to run a dozen large factories for years. It is called, however, considerable stimulus and also capital and if West Enders are called upon to take stock in the company they should not be backward about doing so, as there is no doubt but that it would be a paying investment.

The following is the bill of fare for the Eatery society New England supper at Knights of Labor hall tonight: Pork and beans, Boston brown bread, meats, pickles, hot ginger bread, doughnuts, pumpkin, mince and lemon pie, currant cake, coffee and tea. Supper will be served from 6 till 8 and from 9 till 10 p. m., the concert taking place from 8 till 9.

Word has been received here that A. C. Kaseberg, formerly of the West End but now of Valley City, N. D., has been turned out, and that his loss is severe. His friends here will sympathize with him.

Arthur Morrison was at Clouet yesterday on a short business trip.

KEEP RIGHT ON GUESSING.

Seventy-five Dollars Cash to Closest Guessers on Duluth.

Two Prizes Offered for the Contest; from Now to May.

[Notice that all city letters put in the Duluth postoffice must have two cents prepaid, otherwise The Herald will not receive the guesses, for it will not pay postage on "guess" letters.]

How many inhabitants has Duluth? That is a question for the readers of The Herald to answer. By "Duluth" is meant the city proper, West Duluth, Lakeside and Lester Park, all to all intents and purposes parts of the city.

The Herald proposes to make it an object for its readers to guess as to the number of people in the city and the three adjoining suburbs mentioned above. In brief, The Herald will offer prizes to the two persons guessing the number or nearest the number of inhabitants shown by the returns of the census enumerators. The Herald will give to such successful guessers two cash prizes.

First Prize \$50 in Gold, Second Prize \$25 in Gold.

Guesses will be received at this office until the day when the enumerators of the census begin their work.

Population Contest Coupon.
My guess as to the number of inhabitants in Duluth, West Duluth, Lakeside and Lester Park to be shown by returns of the census enumerators in summer of 1890 is as follows:

Whole number of inhabitants—

Name of guesser—

Residence of guesser—

Date, Feb. 21, 1890.

Address for return of coupon—

Address all answers to "Herald," care The Daily Herald, Duluth, Minn.

May serve as a guide.

About May 1 H. E. L. interest and may be of value. The Herald repeats the following from the census enumerators: It must be remembered that this paper does not count for the accuracy of the figures set forth on the figures given. In fact it will be a gain of 1000 inhabitants with a population of 10,000. In case there are two or more answers of the same number, the number is nearest or next to nearest that is returned by the enumerators, then the winners shall be, in other words, the ones whose answers bear the earliest date.

This volume contains 329 more names than the last census, and is a valuable addition to the list of names of the city and its suburbs. It is a full, complete and accurate record of the population of Duluth in 1890.

HOLIDAY AT CHICAGO.

The Windy City Appropriately Observes the Day.

CHICAGO, Feb. 22.—Washington's birthday is being celebrated today in a more general scale than in any years past. Business is largely suspended, and the streets in the business center are crowded with holiday seekers. At 9:30 this morning the two largest audience rooms of the city, those of the Auditorium and Central Music hall were crowded with school children as the guests of the Union League club. Addresses were delivered by Right Rev. Bishop Spalding (Catholic), Rev. Dr. H. H. Fallow (Reformed Episcopal), Rabbi E. G. Hirsch (Hebrew), Rev. Dr. Bolton (Methodist), and Rev. J. L. Jones (Unitarian). Patriotic hymns and songs were rendered, and each child was presented with a flag. This afternoon, also under the auspices of the club, 5000 citizens of Chicago will rally at the Auditorium where a lecture will be delivered by Rev. O. H. Tiffany of Minneapolis on the "Perils of National Extension." Following this will come the annual banquet of the league, at which Chief Justice Fuller will be the principal speaker. His address will deal with the federal judiciary.

The Englewood men were arrested. CHICAGO, Feb. 22.—The jury in the case of Frank Twombly and Edward Lachowicz, engineers and firemen respectively, the freight train which in September last ran into a passenger train on the Lake Shore road near here, causing the death of seven lives, brought in its verdict this morning. Both men were acquitted.

Driven From France. PARIS, Feb. 22.—A cabinet meeting was held this morning, at which it was decided to set aside the sentence of two years' imprisonment imposed on the Duke of Orleans, and to have him deported to the frontier today. The still by which the Duke was sent out of the country is unknown.

Pittsburg Man Flunks. PITTSBURGH, Feb. 22.—Tonight's proposed fight between Tommy Danforth and Paddy McInnes, of Chicago, has gone by the board. The Pittsburgh man has flunked and forfeited his deposit of \$100, much to the regret of Danforth, who was ready to enter the ring.

Hopkinsville Masonic Anniversary. HOPKINSVILLE, Ky., Feb. 22.—The fiftieth anniversary of the foundation of Hopkinsville lodge, A. F. and A. M., was celebrated today. This afternoon the oration will be delivered by Rev. H. C. Perry, grand chaplain of the grand council of Illinois.

O'Donnell Found Guilty. CHICAGO, Feb. 22.—This jury in the Cronin jury bribing case this morning brought in a verdict finding the only remaining defendant on trial, Jeremiah O'Donnell, guilty of the offense charged, with the fixing his punishment at three years in the penitentiary.

CITY BRIEFS.

A special meeting of the city council is being held this afternoon to canvass for Europe. The city council is now made at 2:30.

Deputy Sheriff Long has returned from St. Peter. He placed Thomas E. Mathews in the state hospital for the insane. The man's type of insanity is classed as "paroxysmal melancholia," and he is very violent. It became necessary to place him in loose at St. Paul, and the assistance of several Union depot policemen and attaches was called into requisition to place the brackets on him.

A car load of ash weights was shipped by the Clyde Iron works to St. Paul today. The weights are for the large Endion block now being erected there. This block reverses the order of a few years ago, when Duluth ordered the same class of goods by the hundred pounds from St. Paul.

The claims by hire in the dental office of Day & Schildt last night amounted to about \$500 on the office furniture and \$170 to the building. Both amounts were fully covered by insurance.

The following variations in temperature were recorded at the Pioneer Press company's office, Hotel St. Louis: 12 m., above; 3 p. m., 14 above; 5 p. m., 21 above; 10 p. m., 8 above; 11 p. m., 2 below; 9 a. m., 5 above; 12 m., 15 above; Maximum, 24 above; minimum, 2 below; daily range, 26.

Detective Benson had quite a tussle with an imberbent muscular farmer last night. Benson finally got away with his man and lodged him in the cage.

Beginning with tomorrow night, and continuing every Sunday evening at 8 o'clock, Rev. M. Barker, of St. Paul's church will give an illustrated lecture on "Life of Our Lord," illustrated by stereopticon.

The annual athletic exhibition of the M. C. A. will be given at Temple Opera house, Wednesday evening, Feb. 23. The program will be extremely interesting, consisting of club swinging, and various gymnastic performances. A program will be duly published.

Sam Duiley was taken ill yesterday with nervous prostration after reading The News.

Schilling's semi-monthly orchestral concert is postponed on account of the burning of the Turner hall.

The Duluth Humane society is making arrangements to put a permanent agent in the field to work exclusively for the society and under its pay, and to have full police powers.

James H. Agen has sold during the last week over \$175,000 worth of real estate. Last Wednesday the South Superior improvement company had a drawing and sold over \$65,000 worth of property.

Tom Smart, colored janitor at Jay Anderson's while assisting in putting up the pennant this morning fell a distance of eight or nine feet, sprained his ankle, bruised his ribs, and was badly shaken up.

I am selling a few lots on Tower avenue, West Superior, at low prices and easy terms. These lots are best suited for a residence. G. G. HARTLEY, 202 First National bank, Duluth, Minn.

Important Change of Time on the Northern Pacific.

Commencing Sunday, Feb. 23, the Northern Pacific-Wisconsin Central train for Ashland, Milwaukee and Chicago will leave Union depot, Duluth, at 3:55 p. m., instead of 4 o'clock p. m.

WAS HE A PRINCIPAL?

Meaning John Graham Who is Wanted by the Chicago Police.

ASTOUNDING DEVELOPMENTS PROMISED IF HE IS ARRESTED.

CHICAGO, Feb. 22.—Within a few days a "lure and cry," with a picture of John Graham, the head center of the jury in the Cronin trial, will be sent to the police authorities of about every city in the country as well as in Mexico. The astounding developments in the trial of Graham dupe during the present week, and during which it was clearly shown that Graham had been employed to bring about a miscarriage of justice, and that according to his own statement, the funds for this purpose were to be found by "the man over the top" of the Opera house building, thus pointing directly at the ex-chief of the triangle, has put the flat base on which Graham is to be convicted at any cost. Once he has been gotten into the toils, it is thought that information will be forthcoming that will bring the Cronin murder home to the original conspirators, at whose instigation the crime was planned and executed by Coughlin, Burke, Sullivan and their confederates. The Cronin committee is making any noise, and it will never be allowed to cease its labors until the bloody deed has been cleared away. It will go a long way toward clearing up the mystery that still surrounds the bloody deed. Graham is tired and induced to tell who employed him to set up the jury, who furnished the purpose, and who he expected to be the pendant upon his support during his exile from home.

Is Dubuque Dirt Cheap? DUBUQUE, Iowa, Feb. 22.—The publication of sensational articles in Chicago and St. Paul papers regarding proposed recovery by the heirs of Julien Dubuque to recover the property now owned by the site of this city has occasioned a great deal of comment and, in the minds of some, a feeling of apprehension. Judge T. S. Wilson, the oldest living judge in Iowa, who occupied the bench in Territorial times, furnishes a synopsis of the case in the United States supreme court which settled the question as to Iowa. The land belonged originally to Spain, was ceded by that nation to the United States in 1803, and by France to the United States in 1805. The land was never sold to settlers. The supreme court decided that the grant to Julien Dubuque was only a grant of privilege to mine, and gave no purpose of recovering the return of the land. The land was never returned to Julien Dubuque, but was sold to the Indians in 1812, when he died, and the Indians continued to occupy the land exclusively until 1852, when they ceded it to the United States. The Iowa statute makes ten years a bar to a suit, and as eighty years have elapsed since the death of Julien Dubuque it is not reasonable to suppose that his heirs have any ground on which to base a suit.

Children's Children Celebrate. CHICAGO, Feb. 22.—Central music hall was this morning given over to the school children, who assembled at an early hour from all parts of the city for the purpose of celebrating the anniversary of Washington's birthday, under the auspices of the Union League club. On the back of the program given to each child, as it entered, was the American flag, and hundreds of small guests of the hands, making the great hall a blaze of color. Many school principals were present. The exercises were closed by the children singing the ode to Washington. Similar scenes were enacted in the Auditorium building, where it was estimated that fully 12,000 boys and girls were in attendance.

A Farmer's Combine. SPRINGFIELD, Ills., Feb. 22.—In the secretary of state's office articles of incorporation for the Farmers Co-operative Brotherhood of the United States, with headquarters at Springfield, Ills., to do a general farming business, and to promote the test them against trusts and monopolies and also to raise money to purchase products of the farmers, are being prepared. The capital stock is \$500,000, and the incorporators are George W. Williams, W. H. Hallaway, A. Morgan and others. The formal papers convey no further information than that given above respecting what is judged by the defined purpose and the capital stock to be an enormous enterprise and of great public interest.

A Youthful Friend. BELLEVILLE, N. J., Feb. 22.—Bertha Myers, an 8-year-old orphan girl living in the family of William Reed in Green Top, Sussex county, is under arrest charged with manslaughter in causing the death of a 4-months old child of Mr. and Mrs. Reed by persistently pressing upon the soft spot on the child's head, thus causing inflammation of the brain and death.

Of Interest To The Hostesses. LONDON, Feb. 22.—The court has granted an injunction against Miss Agnes Huntington forbidding her to sing in or outside the United States without the consent of the Carl Rosa Opera company. The judge said he hoped the Higgins would arrange their trouble before a trial, as it was disadvantageous to managers, actors and singers to parade their quarrels before the public.

Hammond type-writer, Edison mimeograph, letter books and presses, ribbons and other stationery, note books, linen, paper, supplies for all machines, 22 West Superior street.

For sale, a nice lot in McFarlane's Grassy Point addition, at a little below the market price if it can be sold at once. Apply 115 West Superior street.

Wanted For Cash. On Second or Third streets between Fifth avenue west and Fourth east, an eight or ten room house with fifty foot lot. J. C. & R. M. HUNTER, Hunter block.

PERSONAL.

David K. Osbourne of St. Paul, senior member of the firm of Osbourne & Fraser, arrived in the city this morning. James H. James is away from the city on business.

Receives, Maginnis of the West Superior Land office, is in St. Paul with a party of friends on business.

Mr. D. H. Moon of the St. Paul whole sale grocery house of Allen Moon & Co., is at the Spaulding.

C. A. Barton, Chicago, is registered at the Spaulding.

C. Rummel, in the advance for the Georgia minstrele, who appear at Temple Opera next Friday and Saturday, is in the city arranging particulars of the engagement.

Mrs. Royal King who has been the guest of Mr. and Mrs. Wallace Warner for the past month, returned to Minneapolis last night.

Professor M. H. Holmes of the Art institute, received a telegram last night that his oldest daughter died at Chicago yesterday afternoon. He left for Chicago at once and will bring his daughter back here for burial.

Mr. George Deming and wife and Mr. and Mrs. W. J. Lawrence, of Minneapolis, and Mr. W. P. Wheelahan and daughter, Neodah, Wis. are guests at the Spaulding.

Mr. J. C. Davis and wife, Leavenworth, are guests at the Merchants.

Judge Page Morris has returned after a couple of weeks' visit at his home in Virginia.

W. E. Richardson and family leave next week for De Funiak Springs, Fla., for a vacation trip.

Mr. Raymond Moore, formerly of Duluth, is now cashier of a bank in Kent, Washington. Mr. Thomas Devine, also a former resident of this city, is president.

There was a big crowd at the municipal court this morning at the trial of Jas. Purcell and John Van Heest for prize fighting.

McGindley & Cotton conducted the case for the defendants and C. O. Baldwin, represented the state. Chief of Police Doran and Detective Benson were present, and testified to the facts as already known of the affair. The witnesses for the defense were John S. Van Heest and Purcell. After the evidence was in, the arguments of both sides were presented with great eloquence and earnestness.

Judge Davis charged to the jury was not considered a favorable one to the prisoners. If found guilty the charge was \$2000, and the state, Chief of Police Doran and Detective Benson were present, and testified to the facts as already known of the affair. The witnesses for the defense were John S. Van Heest and Purcell. After the evidence was in, the arguments of both sides were presented with great eloquence and earnestness.

Philadelphia—Annie Pixy was taken suddenly ill with hysteria last night while playing M'iss in the Arch street theatre, and the play was stopped.

Berlin, Germany—A Reichstag election returns show election of twenty-seven conservatives, thirteen national liberals, three ultra-conservatives, twelve liberals, three Poles, one independent liberal, two Alsatians, three democrats and one Hindu. In 1907 elections will have to be held in 104 districts.

Brussels, Belgium—The Congo free state has empowered the Brussels Anti-Slavery society to send an expedition to Africa to aid in suppressing the slave trade.

Birmingham, Ala.—Gilbert Howe, (colored), was hanged yesterday for the murder of J. W. Meadows. He met death bravely and died with a smile on his face, besides making the usual remarks about "going straight to Jesus."

Nashua, N. H.—The treasurer of the Nashua company's mills has issued a circular defining the company's position and placing the blame for the closing of the mills upon the operatives.

Toronto—Senator MacInnis has introduced a bill into the senate making Gaelic an official language of the Dominion.

St. Louis—President Von der Ahe of the St. Louis ball club denounces as ridiculous the report that he has thoughts of entering the Western league.

Pittsburg—A rumormongering of the roads of the Pan Handle system under the corporate name of the Pittsburg, Cincinnati, Chicago & St. Louis railroad is published here today. Mileage is about 105 miles.

Rutler Glen, Va.—The boiler of the saw mill exploded here this morning with terrible violence, killing several employees and wrecking the building.

London—The boat with six of the crew of the British ship Sovereign, from Cardiff for Montevideo, which was sunk by collision with the steamer Highgate off Lundy Island, is still missing.

Another Scheme. It is rumored today that representatives of an Eastern iron manufacturing concern are in the city to procure a location for a large plant to employ several hundred men. No one was found who could verify the report.

They Furnished Bail. New York, Feb. 22.—Geo. H. Pell and James Simmons, two of the three financiers who were indicted for embezzling \$31,000 of the assets of Lenox Hill bank, spent last night in the common murderer's row in the Tombs prison. They slept last night and appeared haggard this morning. At 1 o'clock they were taken to the district attorney's office where they were met by their counsel who said the prisoners were ready to furnish \$20,000 to be required to secure release. Simmons' bond was approved this afternoon, but Pell is still being held until certain formalities are gone through with.

Flour Given Away. To every purchaser of \$1 worth of groceries for cash we will give a ticket on one sack of flour, same to be drawn for every Saturday afternoon at 5 o'clock at A. W. Elder's Grocery, 204 Lake avenue south. Telephone 325.

Don't forget the concert and New England supper at Knights of Labor hall tonight.

The Herald bindery has the best facilities in Duluth for making blank books.

CONVENTION AT TORONTO.

Delegates of the Law and Order Association Hastily Enroute.

Toronto, Can., Feb. 22.—Delegates to the international convention of the Law and Order association of the United States are arriving here in large numbers.

The executive committee is in session today, and the formal opening of the convention will take place this evening. The delegates will be hospitably entertained by the citizens. The stars and stripes are freely displayed over the city in compliment to the visitors.

Flynn and Colville to Remain. MINNEAPOLIS, Feb. 22.—A Journal Washington special says: Notwithstanding contrary reports, the present democratic incumbent of the Duluth post office will not be removed until term expires. He is a popular official, has conducted a clean administration, and for this reason will be allowed to serve out his term. Congressman Comstock denies the reports.

Northwestern papers, to the effect that Capt. Colville, receiver of the Duluth land office is to be removed, Mr. Colville said today: "It is true that Capt. Colville is a earnest democrat, but he has made a good official, and being an old soldier with a first-class war record, will be allowed to remain until his term expires. There is no demand for his removal either."

Temperance Women Organize. CHICAGO, Feb. 22.—A branch of the Non-partisan League Christian Temperance union, of which Mrs. J. Ellen Foster of Iowa is the recognized leader, was formed here yesterday.

Ten Fond du Lac lots, mostly on Second street, for sale below the market if taken at once. Inquire 115 West Superior street.

Branch Office of the Superior Abstract Company, Superior, Wis.

MYERS & WHIPPLE

Two sections and 500 acres scattered in 47-16, \$7.50 and \$8. 80 Acres in 12-47-17, \$10 per acre, perfect title. Two 80's and one 120-acre tract in 49-16. 600 Acres scattered in 48-16. 2000 Acres in 50-16, cheap and sure advance. Two 160's and one 80-acre tract, 50-15. Some excellent purchases in 50-14 and 51-14. Bargain back of Lakeside. Look out for Adams, Appleby, Laprairie.

WITH THE MILL MEN.

Sawmill Operations in the Duluth District for the Year.

The Brennan, McClure and Other Neighboring New Mills.

Progress in the Woods Remarkably Good, a Big Crop Sure.

It certainly looks as if the expected revival of the lumber and sawmilling business of Duluth and the Duluth district was upon us and with a rush. Besides the new mills now going up and the old ones being remodeled and repaired, and besides the recent and continued activity in pine, there is not a little talk of still more mills and a considerable amount of this talk is based on the hardest kind of fact. In the new mill in the neighborhood is that of the Brennan lumber company, successor to John Brennan at Hondokey. This mill is now under construction and will be ready for business in the spring. It is owned in large part by Chicago Falls parties. The Saginaw end of the firm of Mitchell & McClure, who are largely interested in the purchase of something like \$250,000 worth of Duluth district pine, looking within the last ninety days, will be in Duluth in a few weeks to look up a site for a large mill, with capacity equal to that of any two mills now here. This firm already has several good locations in mind.

Before the death of the late D. J. Kays of Aitken, he had completed plans for building a large mill at La Prairie, the Duluth & Winnipeg town at the junction of the Duluth and Mississippi rivers. His plan has been through, and it is learned that other parties have taken up the scheme, and a very large and complete mill will be in operation at La Prairie in another year. It is expected that the main market for such a mill would be west, though a large share of the better grade lumber will be shipped to the East via Duluth. The winter has been very favorable for loggers in the district and most of them have already banked nearly their full quota of lumber in the early part of the season was especially favorable for chopping and in many cases for the timber was cut than was looked for at the outset. Later, with slight exceptions, hauling weather has been all that could be asked and some operators are about breaking through. There is a fair amount of snow in the woods, probably averaging two feet well packed, and while heavy and strong were dry in the fall a good driving stage of water is looked for.

The new Gilbert mill on Rice Point, a description of which has been given in The Herald, will saw not only for the Olsen Land company but for the big Cranberry Land company that last fall began very extensive operation near the mouth of the Cranberry river. This company is composed of a number of heavy men including Messrs. Gilbert, Higgins, Geo. W. Stevens and a number of Saginaw parties, and is engaged in business in a way to get out lots of timber. This year its cut will be sawn, under contract at Ashland, but later part, at least, will be sliced up in the Gilbert mill. The Cranberry company owns more than 200,000 feet on the river of that name, and expects to cut 150,000 or 200,000,000 a year. It has let contracts for the improvement of the river to the Cranberry Improvement company, whose annual meeting is to be held on the 6th of March. The Improvement company, which is composed of about the same people as are in the Lumber company, has already done a good deal of work.

The annual meeting of the Vermilion Boom company will be held here next week. Some time this week the J. C. Howard lumber company will have its annual one of the largest, if not the largest, ever taken out of the woods in the Northwest. The load will amount to 15,000 feet, and photographs for exhibition will be taken of it. Such a load will weigh nearly 50 tons.

MARINE MATTERS.

Another Steel Steamship Launched—The Iron Company's Fleet.

Another steel steamer was launched from the Cleveland Shipbuilding Company's yard, on Thursday, the Lake Superior Iron company. The new craft will be the Joliet. Her keel is 205 feet, beam 32 feet, and depth 24 feet. She is 251 feet over all. She is built for the ore trade, and will carry 2,200 tons on a draft of 16 feet. She has seven hatches and is provided with an electric dynamo. By the middle of April the vessel will make her first trip. Capt. Orville Green will command her.

Tol, Stanbaugh & Co. have made season contracts with J. C. Gierhart for ten of his vessels, to carry ore from Escanaba to Lake Erie ports at \$1.10. The vessel was the steamers John Craig, J. C. Gierhart, Cumberland, Oregon and Waverly, and the schooners Bruce, Crowwather, S. H. Foster and Alverson. The vessel being built at Quincy's yard, to be launched in June, is the tenth.

Buffalo Express: "Ore men are quite sure that a largely increased amount will be handled here this year. It is said that 500,000 tons have already been secured. One firm has 100,000 tons, and there is a report that 100,000 tons of Chapin ore has lately been sold to come here."

Capt. George Mallory will command the Minnesota Iron company's new steel steamer Mariska, whose launch was noted in The Herald of last Wednesday. The third vessel of the fleet will go off the ways June 8 at Cleveland, and the fourth June 25.

Chicago coal men have decided to try and effect an arrangement with iron and copper dealers so that boats might come from Lake Superior to Chicago with ore and return with coal. Boats now go from Chicago in ballast. Coal dealers believe money can be saved by unloading in Chicago and shipping to Lake Superior ports.

For Sale. Hazelwood, Grand avenue, Harrington addition lots, nicely located near Cliff avenue, the coming center of development. Apply to CHAS. M. CUSHMAN, Hazelwood, or 5 Ferguson building.

Notice. Will the party who got the sample stock certificates from The Pioneer Press office, 408 West Superior street, a short time ago return same at once, as they are needed very badly.

Every house in Duluth should have a Webster's Dictionary. See unexampled bargain in The Herald today.

THE SEALING MONOPOLY.

Governor Swainford Tells how It Should be Changed to Benefit All.

When Governor Swainford of Alaska, was in Duluth last week, he talked to a Herald reporter on the seal fisheries and seal fur of Alaska, but for the control of which were opened by the treasury department Saturday. A day or two later he was interviewed on the subject in Marquette, the text for his remarks being a remonstrance from a Detroit man against the system of leasing the seal islands and who stated, among other things that the skins could be dyed and manufactured in Alaska. By the present plan Americans are deprived of labor, the fisheries do not bring sufficient income to the government and our people pay too much for furs.

The governor said: "The statistics are rather under than over the truth, but all these remonstrances will do no good. It is a downright shame and disgrace."

"The matter is old history. Briefly, the condition is this. The natives of Alaska, except the few in the small district about Sitka and Juneau, are as much the slaves of the Alaska Commercial company as were the negroes in the South before the war. The trouble is that the Alaska company has a monopoly of the seal catch on St. Paul and St. George islands for which it pays the government \$317,500 a year and out of which it clears over \$2,000,000 a year net profit, and this monopoly carries with it a monopoly of all the other fur industry of Alaska, which reaches to \$10,000,000 or \$15,000,000 a year. The Alaska company is making such large profits on its sealing monopoly that it can afford to go in and do other business at a heavy loss for a number of years in order to drive other fur buyers from the market. It has done this repeatedly. The result is this monopoly of trade in all other furs. It pays the native hunters barely enough to keep them alive, keeps them in debt, for supplies, and makes of them virtual slaves. What I would recommend is that the government lease the islands as they are now a reservation. The present inspectors could see to the killing of the seals. The skins should be sold in open market, either at the islands or in San Francisco. Such a course would tend to bring the London dyers to this country, and the \$700,000 paid there for dressing, tanning, plucking and dyeing would be paid to resident American workmen. Sealskins would thus be made cheaper to users, and over three-quarters of a million dollars would be paid out in wages in this country now sent to London."

WEST END.

Mr. Dowling Dies; A Chapmanship Race.

General Notes of News.

Alderman Kennedy is now able to be out again.

Mr. O. Nelson has returned from Minneapolis.

Messrs. Kate and Lizzie McKay went to Minneapolis last night to visit friends for a short time.

Eighteenth avenue between Michigan and Superior streets is being graded.

San Menace, with about forty men of his camp, has returned.

Rev. Ben McKim will deliver a lecture, "Customs and Customs of India," at the Second Presbyterian church this evening, under the auspices of the Mission League.

The lecture is a moral and educational one and very instructive. It should be well attended.

There was a large crowd present at the West End Parlor skating rink Saturday night to witness the skating contest for a gold medal and the championship of Duluth. The judges unanimously gave the medal to Thomas H. Moore.

Thomas Dowling, father of John Dowling the lividary, died yesterday afternoon of pneumonia. He had been ill for a number of years. He was well known and much respected, having lived here for many years. His body will be sent to West Bend, Wis., for interment.

Matt O'Meara, the shoe man, was bitten by a small dog yesterday and is now running a sore hand.

Mr. Hector Baxter lectured to quite a large audience of men at the Episcopal church yesterday afternoon.

F. H. White left this morning for Brainerd on a short business trip.

Boys Savings Bank.

The deposits of the junior saving bank at the Bethel were \$24 in two weeks.

The boys are clamoring for tickets and can't get enough. A savings bank would undoubtedly be a paying institution.

The clubroom is about half full and the early addition of another room is imperative.

Continued This Week.

The revival service will be continued at the Christian church this week. Rev. Mr. Lane will preach this evening at the usual hour. Subject, "The Model Sermon." Song services from 7:30 to 8.

SPORTING NOTES.

This spring the Chicago club will have the earliest opening on record in the Windy city.

The Indianapolis players have been ordered to report for duty on March 17.

New Haven's opening game will be played with the Boston League team on Good Friday, April 4.

Anson has a veritable lot of colts this year. Only four men of colts teams—Burns, Hutchinson, Wilcox and Carroll—have had any experience in the National league.

It is said that a law will probably be passed by the New York legislature prohibiting Sunday ball playing in that state.

Detroit has a standing offer for First Baseman Jake Virtue from Indianapolis who would be a paying institution.

Europe is not alone to have the honor of using cycles for military purposes, for the District of Columbia, taking advantage of Washington's smooth streets, intends to mount its signal company of the militia on bicycles.

The Herald bundry can turn out heavy ledgers, etc., just as you want them, and do the work for you promptly.

Everybody wants those sterling reference books—A Standard dictionary and encyclopedia. See Herald premium offer.

Everybody wants those sterling reference books—A Standard dictionary and encyclopedia. See Herald premium offer.

Owners of property in Third and that part of Bay Front division, clouded by the Prindle claim wishing to have their property represented in the action about to be brought against Frederick Prindle, must hand in their list and subscribe their name within ten days from date hereof.

Sately & Craig and Greene will be in their office, 300 and 301 First National Bank building, from 7 o'clock until 10 o'clock during every bank day, for the following week, affording an opportunity to those busily engaged during the day to give their attention to this matter during the evenings.

Feb. 6, 1890.

M. R. BALDWIN, G. G. HARTLEY, L. M. WILCOX, Committee.

Remember that for handy consultation and young people's use the premium Webster's Dictionary by The Herald is the best and cheapest.

AFTER THE YELLOW STUFF

The Four Gold Prospects And Mines on Michigan's Peninsula.

The Ropes, the Michigan, the Gold Lake and the Grayling.

Superior, Mich., Feb. 24.—The advent of spring brings with it great activity on the Ishpeming gold range. When it was first reported that the Upper Peninsula of Michigan possessed gold as well as iron and copper, few believed the statement, but now, when word-of-mouth reports of the quartz veins are but a few miles from this city have been demonstrated by the successful milling of it to the entire satisfaction of the most skeptical.

The Ropes gold mine continues to move in the way of development, producing an average of about 8,000 worth of bullion and concentrates every month. The mine is looking well and there is no reason to doubt that its record will continue unimpaired. The Michigan mine now has its Huntington mill in running order. The clean-up at the mine resulted in the production of a gold brick valued at \$840. For the past two weeks the mill has been kept in constant operation, and the work has been satisfactory. The management has decided not to "retreat" again until the last of the month, when another showing proportionately as great as that of two weeks ago may be made. The gold mine is looking well and there is no reason to doubt that its record will continue unimpaired. The Michigan mine now has its Huntington mill in running order. CHAMBER AND COUNCIL.

Chamber of Commerce Meets in Important Executive Session.

A Meeting of Council in Which Gifts are Extended Freely.

Business Rushed Through to Make Up for Lost Time.

The Chamber of Commerce met in executive session this morning and the public business of that body was somewhat curtailed in consequence. The Duluth & Winnipeg company thanked the Chamber for a resolution endorsing the intentions of the company and voting to help the railway secure proper terminals near the city limits or at West Duluth.

The mayor of Montreal gave the Chamber further information about the Ontario street assessment plan, and the communication was referred to the committee on Ontario. Mr. Seabury, the St. Paul wholesaler, wrote the Chamber on the importance of securing the appropriation of the improvement of the Sault. Mr. P. Kelly, representing the Ramsey county, N. D., sufferers, addressed the Chamber, and a special committee consisting of Messrs. Hall, Craig and Kennedy was appointed to take charge of the matter of helping the poverty-stricken people.

THE COUNCIL MEETING.

A Very Important Gathering of the City Fathers.

There were nine of the aldermanic board and a cove of spectators present in the council chamber last night and the ward representatives got it down to work from the time President Castello's gavel called them to order. Mayor Sulphur asked the council to endorse his dismissal of Officer Keating for using obscene language. Referred to police committee.

McArthur Bros' bill of \$101.17 for work done on street contract was ordered paid.

The estimate cost of paving Michigan street from Second avenue east to Ninth avenue west was \$11,133 and the matter with other petitions as to grading, etc., was referred to the proper committee. A transfer of land from John Hendrickson to Peter Gros, estate of Moritz Gundy to John Gundy, also a re-issue to E. R. Meyer, who was burned out at the Turner hall fire, was allowed. H. H. Bell's bill of \$110.84 for expressing city bonds was referred. Dahl & Bergemann made a little kick about a settlement for the laying of sidewalks and the communication was filed. A transcript of the Thayer and Johnson judgment was referred. The annual inventory reports of the comptroller, treasurer, health officer, board of streets, engineer, assessor, and board of public works were referred to the auditing committee. The building inspector's report for seven months showed the issue of 127 permits and cash receipts of \$501.57.

The health officer's report showed the removal of 10,000 loads of garbage, etc. There were 312 dead animals disposed of by being taken to the Hallock stock plant at Oneco. Deaths by disease for the year were 916, a death rate of 7.2 per 1000. The number of births was 624.

The health officer made important and sensible suggestions as to the letting of scavenger contracts and to a rigid supervision of the source of water supply.

The report of City Clerk Bulden showed a total of \$84,235.25 received from the sale of licenses, etc., as follows: Liquor licenses, \$70,000; billiard and pool tables, \$120; pawnbrokers, \$250; sewer connections, \$100; auctions, \$200; scavengers, \$10; pedlars, hawkers and canvassers, \$773.25; dog licenses, \$121.21; drays, \$87; bill posting, \$100; shooting galleries, \$13; election fees, \$120; sale of city charter copies, \$42.

The board of public works was authorized to purchase a boiler to thaw out frozen sewers, etc., not to exceed \$400; and the Wolf & Trust bill of \$83.32 was ordered paid. A tax-rate petition was referred to the city attorney.

The Albersson & Chamberlain bid for furnishing stationery was rejected, as the quality of the goods could not be first class at the prices given.

The election returns were canvassed and no change was found from the statements already given in The Herald. Bills received for furnishing lumber were all rejected, and A. V. Burr's bid of \$12.50 per thousand for furnishing grade stakes was accepted.

Resolutions were accepted authorizing the printing of the report of the board of public works, the purchase of 1000 feet of hose for the fire department, permitting the Clyde Iron works to build a short railway track on the Superior street, and the clerk was instructed to advertise for bids for carrying teams and foot passengers across the canal. A lot of fire hydrants were ordered on St. Croix avenue.

An ordinance granting the Duluth Street Railway company the right to build, maintain and operate an elevated incline railway on Seventh avenue west from the north line of Superior street to a suitable point on the crest of the hill, was passed after several amendments and much discussion. This line is to be finished and in operation by the last day of June, 1891, otherwise the ordinance is void.

The following ordinances received their first readings: An ordinance granting the Duluth Street Railway company the right to build a street railway to be run by electricity and to put in conduits or overhead wires as necessary, company to accept conditions of ordinance within thirty days after its passage.

An ordinance granting the Duluth Belt Line Railway company right to build and operate a track on St. Louis and Minnesota avenues, to cross the different streets necessary and to enter Park Point.

An ordinance granting certain rights and privileges to the Duluth Central Depot company.

There are two other meetings of the old council before the members-elect will take their seats.

Van Houten's Cocos—the original—most soluble.

For Sale, Hazelwood, Grand avenue, Harrington addition lot, nicely located near Cliff avenue, the country center of developments. Apply to CHAS. M. CUSHMAN, Hazelwood, or J. F. Farnsworth, building.

Every house in Duluth should have a Webster's Dictionary. See unexampled bargain in The Herald today.

WEST END.

Daily Injured in the Lumber Woods: The World-be Suicide.

The lecture at the Second Presbyterian church given by Rev. Ben Mitchell last night was well attended notwithstanding the inclement weather. Five young girls were dressed in the different costumes of India. Mrs. Mitchell sang one of the songs of the Huddoes.

Patrick Sullivan went to Albert Lea yesterday to visit friends.

Rev. T. M. Findley is on the sick list—sore throat.

Mrs. J. L. Loyd went to Minneapolis last night to visit friends.

H. S. Lord is somewhat elevated this morning, all on account of a boy who arrived yesterday.

Mrs. O'Meara, mother of Matthew, Morris and Eugene O'Meara together with her oldest son, Mr. O'Meara and his family arrived last night from Eau Claire, Wis., where they were registered at the Clarendon yesterday.

James Westberg of Chicago was looking over the West End yesterday.

The Ladies Aid society of the Methodist church met tomorrow afternoon at the residence of Mrs. J. S. Forward for the regular monthly meeting.

The Good Templars met this evening in the basement of the Second Presbyterian church. The lodge, just at present, is in a very flourishing condition.

O'Neill, the girl who attempted suicide yesterday, is now at St. Mary's hospital. She is under the care of Dr. Brunet, the county physician.

There seems to be no doubt but that she will live. She is known here in the West End, having been a waiter in the Clarendon when she first came here about a year and a half ago.

Mrs. H. McLemore left for St. Paul last night, being called there by her sister's illness.

Thomas Harris, a sealer in the employ of the C. N. Nelson Lumber company, while working the St. Louis river yesterday afternoon was struck on the head by a falling tree, producing concussion of the brain. He is now at St. Mary's hospital.

Fred Decker, another employee, had his left leg broken while loading at Newry's camp Saturday. He arrived here Sunday and also lies at St. Mary's hospital.

Securing a Crop at Vermilion Lake and in the Bay.

Duluth women do not believe they'll be able to sell their product as cheaply the coming season as last year. They say they are forced by the mild winter and by public sentiment to cut all their household ice far from home, and that the extra cost will compel them to charge more. It is true several thousand tons of ice are being cut in the bay, but this said to be only for storage purposes, most of it for Duluth, where a great quantity is used for packing and storage, and some for Cincinnati and other cities.

But as to household ice, the dealers believe they could get a perfectly pure article in the bay below the canal, or out toward the mouth of the St. Louis river, and are obliged to go miles away and have already made arrangements to cut on the beautiful Lake Superior. It is estimated that 6000 tons will be put up from there and this, with what is on hand here, last year will keep Duluthians cool next summer.

The Mozart Concert.

The next Mozart concert will take place at Steinway hall, the first public entertainment to be given at the Duluth Music company's new hall. The room will hold several hundred people and the smug grinders will make the Mozart entertainment the most popular of the season.

Collier, the American sprinter, won the big sprinting handicap at Sheffield, England, last Tuesday.

Wesley Russell, captain of the Women's Wheel club of Buffalo, rode 230 miles in 1890.

Johnny Ward is going to take his Brooklyn team to Texas on a spring trip.

Kid Madden is now the only old Boston player unsigned. The Kid is expected to be taking excellent care of himself and is confident of putting up the game of his life next season.

The Texas Baseball league was organized yesterday by the admission of Austin.

James signed a Player's league contract today with the Pittsburgh team.

Final arrangements have been made for the great team race between the East and the West. The East will be represented by the Wilmington Wheel club and the West by the Chicago Wheel club. There will be six riders in each team, and all will be men famous in the wheeling world. The race will be run on the Lacanah Pike, near Philadelphia, on or about June 28, for a \$250 prize, a \$25 trophy for each man in the winning team, and the losers to pay all expenses of winning club while on the trip. The West will be able to represent by such men as Lumsden, Van Sicken and Terre Andree. The distance will be twenty-five miles and will be the event of the year.

The Herald bundry can turn out heavy jackets, etc., just as you want them, and do the work for you promptly.

WEST DULUTH.

Largest and best list of business and residence lots at West Duluth. City agent of West Duluth Land company.

E. W. MARKELL.

Hotel St. Louis block.

For Sale.

Double house in Edgemoor. Gas and water. Rented, pays 10 per cent. JONES & GRACE, 400 First National bank.

Turkish Baths.

The Hotel St. Louis Turkish baths will be opened daily except Sunday, from 8 a. m. to 12 p. m. under the charge of Mrs. Faller; gentlemen from 2 p. m. to 10 p. m. and ladies from 4 to 6 p. m. under the charge of Mr. Faller and assistants.

Owners of property in Third and that part of Bay Front division, clouded by the Prefecture claim wishing to have their property represented in the action about to be brought against Frederick Freese, must hand in their list and subscribe their name within ten days from date hereof.

Saturday & Craig and Greene will be in their offices, 309 and 301 First National Bank building, from 7 o'clock until 9 o'clock during every evening of this and the following week, affording an opportunity to those busily engaged during the day to give their attention to this matter during the evenings.

Feb. 6, 1890.

M. R. BALDWIN, G. C. H. HARTLEY, L. M. WILSON, Committee.

TO MANUFACTURE IRON.

A Project of Capital Duluth Wants to See Turned This Way.

We Can Make Pig Iron Cheaper and Our Furnace Will Show It.

A blast furnace is projected at South Chicago, an enterprise independent of the Illinois Steel company, by capitalists who have been impressed with the advantages offered by the location for the cheap manufacture of pig iron and by the increasing importance of the market for pig iron in the Northwest.

Duluth wants to see the Chamber of Commerce take up this matter of aiding in the development of the iron and steel industry at this point. It wants to see this company of capitalists show the advantages of the Duluth location for location, freight, ore and market, and an effort made to locate them here, so that a single blast furnace may be added to by the several others intended in Chicago. They are developing it in the manufacture of pig iron by reason of its proximity to the Western market on the one hand and the source of ore supply on the other. Chicago is no better situated with reference to distributing iron than that of that city than is Duluth, and distant from the Conneville coke region as this city, and is not nearly so well located for the purpose of manufacturing ore cheaply. This being the case, it is not as good a point for a coke furnace industry as is Duluth, or \$2 per ton less than it can be turned out from a Chicago furnace, while the freight charges between here and Western points would not be any greater from Duluth than from that city.

The Marquette Mining Journal talks as follows on the matter: But the furnaces are going in at Chicago, and it is getting to be a great iron manufacturing center, while Marquette is doing nothing to utilize her great natural advantages for that branch of manufacturing. This is because our people are not exerting themselves to bring the favorable conditions that exist in the iron industry to the attention of iron men who are seeking Western locations for their plants. They are also to be seen in the fact that the iron industry is not getting to be a great iron manufacturing center, while Marquette is doing nothing to utilize her great natural advantages for that branch of manufacturing. This is because our people are not exerting themselves to bring the favorable conditions that exist in the iron industry to the attention of iron men who are seeking Western locations for their plants. They are also to be seen in the fact that the iron industry is not getting to be a great iron manufacturing center, while Marquette is doing nothing to utilize her great natural advantages for that branch of manufacturing. WORLD OF COMMERCE.

A Market Firmer and Slightly Better for Wheat To-day.

Chicago Gossip; Stock Prices; The Daily Movement; Notes.

The market ruled slightly firmer today, though the opening price here was 1/2 below yesterday's close. Business was also better, the aggregate transactions of the day being quite large. As the close there was a fair demand. The better feeling was principally due to the good business in other markets and especially to the export business at New York, where sixteen loads were worked, besides nine loads for milling. Cash wheat closed at 70 1/2 for No. 1 hard, 71 1/2 for No. 1 northern, 72 1/2 for No. 2 northern, all nominal. May wheat opened at 70 1/2, advanced to 70 3/4, dropped back to 70 1/2, then, firming up to 70 3/4, where it sold just before the close and closed at 70 3/4. May No. 1 northern closed at 72 1/2 bid.

The Daily Movement.
Cereals on track: Wheat 23, corn 24, oats 14, receipts: Flour 325 bbls; wheat 578 bu; corn 17,210 bu; oats 19,340 bu. Shipments: Flour 539 bbls. Inspection: Wheat No. 1 hard 48 cars; No. 1 northern, 12; No. 2 northern, 3; corn 72; oats 44; total 149 cars. Minneapolis reported 132 cars on track. Receipts there were: Wheat 75,890 bu. Shipments: Flour 23,257 bbls; wheat 11,285 bu. Chicago reported cars on track as follows: Wheat 83; corn 537; oats 435; rice 41; barley 81.

Chicago Wheat.
The following dispatches are over the private wires of W. W. Bill, successor to Press, Wheeler & Lewis:
Wheat: There was today a plentiful supply of outside features mostly of a bullish character. Colder weather throughout the Northwest with proper conditions for a big drop in temperature here tomorrow, good exports at the seaboard, together with good demand from millers, all of which of California crop reduction and Liverpool stocks estimated to be curtailed to a formidable consumption together with light India and Russian shipments, caused an appreciation of about 1/2 since yesterday's closing, hardly enough to exhaust an operator with the bid side of the market. Favor buying wheat rather than selling.

Corn: Firm on account of reports which expected the large receipts to give them weak markets, but were disappointed as offerings were small.

Oats: Dull but very firm. The buying of oat meals and hard by strong houses still continues.

New York Stocks.

Largest Circulation in Duluth.

Persons desiring THE HERALD at their homes can secure it by postal card request, or order through Telephone No. 34. Where delivery is irregular, please make request consistent to the office.

Entered at the postoffice at Duluth, Minn., as second-class mail matter.

The Washington office of The Herald is at 25 New York street, where the paper is kept on file and where The Herald correspondent will welcome visitors from the Northwest.

A WELCOME ASSURANCE.

The statement made by the general manager of the Duluth Street Railway company in The Herald of Tuesday, when he said that the company was open to everybody in the city and everybody who was coming into it. No contract has yet been entered into for the provision of the requisite plant and railway equipment, but ample means for this provision have been positively secured, and it is the intention of the company to these contracts without delay for the transformation of the present street car service. Application will be made at once to the council for leave to erect the necessary posts for carrying the trolley wires, and an electric system of the best modern design will take the place of the mule and bolt-car.

There is certainly good reason now to believe that the company is, at last, fully awake and earnestly desirous of doing its part to accommodate and satisfy the city. It is proposed to extend the system not only over the present Superior and Bench street lines, but over an East End line as well running into township 51-14 and from the West End also to West Duluth, as soon as the road is made practicable and available. The Fourth street line is not so positively assured, but there is reason to hope for this line also, and convenient connections with the lower lines. The news that the company really means to better itself at once for the best accommodation of the city without counting the cost of the necessary outlay fearfully and grudgingly, seems almost too good to be true, but The Herald is glad to take it as given.

The city is wide-awake at this time, and salt and to hold it up before the company as a pledge to go ahead which the city accepts in good faith. We do not believe that the company will seek to disregard its pledge, and we know it cannot afford to put pretenses in place of performance any longer. The city is wide-awake at this time, and salt and to hold it up before the company as a pledge to go ahead which the city accepts in good faith. We do not believe that the company will seek to disregard its pledge, and we know it cannot afford to put pretenses in place of performance any longer.

The Herald makes no excuse for davoring considerably space in an editorial column, to an article from The New York Financier, setting forth some particulars of a newly invented process by which the cost of fuel for manufacturing purposes, is reduced to one twenty-fifth the cost of coal at \$5 per ton. The basis of the new fuel is combined with steam; probably a new form of hydro carbon gas, and probably also in composition, and much like the "water gas" used here for illumination. The process seems to have been adequately tested and is no longer experimental. This discovery solves many problems for the manufacturing interests of this city.

If Captain McDougall's complaint of the action of owners in Bay Front division is a just one, we sincerely hope that these owners will lose heavily for their indifference to the loss of the city and the failure of the speculative speculation. If, however, this complaint is merely an excuse to cover a pre-arranged move to which Captain McDougall was in any way a party, the truth should be made known in justice to the speculative Bay Fronters and the delusive Barge company. If the case is allowed to stand as stated the short-sighted Bay Front division owners can safely rely on a just sizing up by the city at large and frank condemnation in the court of public opinion. The city does not expect that all real estate owners will be unselfish philanthropists and public benefactors, but it does justly look for some remembrance of the fact that they are living in a rising city and not in a pen.

In the recent sale of the collection of a noted book fancier, the distinguished New York lawyer, S. L. Barlow, the high prices of the manuscript curiosities that are the treasures of bibliomaniacs occasioned general comment rather wondering than commendatory. If a superbly endowed private library or a millionnaire's collection is to be sold, the public should be allowed to have a share in the purchase, at a price that is not too high. It is urged with force that there is no tenable reason why such a library should be turned into a museum. The public generally is not the better off for the purchase, at exorbitant prices, of books that are only valuable in the eyes of book-cranks and other worshippers of trifles whose only importance is their rarity. The translation of the Columbus letter, for which nearly \$3000 was given, is intrinsically not worth a quarter of 300 cents. It ranks among such curiosities as the razor with which the Duke of Wellington was shaved the day before the battle of Waterloo, or the pen with which King John signed Magna Charta, or the saddle that might have been on the back of the ass in that memorable scene with Baslam. A public library is established for the education and entertainment of the people and not to gratify the eccentricities of a few people who have a hobby for collecting old known editions of Isaac Walton, or first editions of Dickens, that is one thing, but it is quite another thing for a public library to expend money to indulge such senseless pretensions, particularly when the public, whose money is spent, do not profit in any way by the extravagance.

THEIR INNERMOST THOUGHTS.

Postmaster Flynn: I'm waiting for my Herald before I go home. I can't live without that paper; it's bright and cheery like, and helps digestion. The Herald's practice of putting its folder last night and that made Postmaster Flynn's paper and everybody else's paper late. It's no small job to fold 3000 papers by hand, even when there's a stack of boys to do it. Judge L. B. Noyes, census supervisor of the Fourth Wisconsin district. My district will show an increase in population over the census of 1880 of from 35 to 40 per cent. All of the towns in the Iron country have sprung up since the last census. At Rhineland, where they now have 400 or 500 people, there was nobody ten years ago. Other places have grown. Ashland claims 16,000, and I think they have as many as 12,000.

President Hill of the Great Northern, in New York. The rates have fallen every summer to something like sixty cents. That shows that this is the only rate which can be maintained. Rates from Buffalo to Duluth have always been higher than from Buffalo to Chicago, although there is no justice in it. The distance is about the same. There will be no trouble when they put them on the same basis. Of course that is an ancient Duluthian ailment, but it belongs to the Manitobasystem, and St. Paul & Duluth an advantage, but shouldn't we have it? We have a geographical advantage over Chicago lines. It is only 150 miles from Duluth to St. Paul, while it is 400 between Chicago and St. Paul.

Why shouldn't we carry freight cheaper? M. M. Riley of Hessemer, Mich.: The profit in mining iron shown in the record made by the Norrie. Besides the \$602,000 in dividends paid for 1889, J. M. Longport got \$200,000 royalty; Gordon Norrie, the lessee who sold to the company, was paid \$150,000 of royalty and \$175,000 of working profit is retained in the treasury—a pretty good record for one year, on an actual iron investment of not over \$100,000. A Minneapolisian: We've got a little street car building concern that came to Minneapolis chiefly on flatterings offers from local people that it would be sure to get Northwestern business. Now Tom Lowry has given his new contract for the Duluth-Moon line, and the likelihood that the Duluth-Moon line may leave the city because of the contract going outside. Ed Spink of Park Point: That canal is a dangerous place sometimes. My wife and I were crossing last night and there didn't seem to be much swell. But when we got near Park Point a swell took the boat on top of an ice cake and the current, swirling it around and it partly filled with water. We couldn't do anything and we were badly scared. I tell you. Finally the boat swung off and just as we reached the steps it got on another cake. I took my wife and raised her right out and threw her to the steps and we drifted down. But we got off all right. If we are in the city we must have a bridge.

M. B. Harrison: West Duluth is all right. The town will grow, and new manufacturing will come in. Nothing can hinder the growth of the "young Pittsburgh." The spring will bring surprising developments.

AMONG STATE EDITORS.

Moorhead News: The St. Peter Herald mentions Knute Nelson, H. B. Strait and Joel P. Heatwole, as candidates for governor, either of whom has ability and would honor the chair. M. E. Clapp is also named by the St. Paul Globe. But the republicans haven't spelled out. They keep up a silence with great industry. Maybe some of them think the democratic papers better mind their own business. Battle Lake Review: Make a law that would impose a fine of from \$300 to \$500 on a person convicted of killing a deer out of season, and let the whole amount be paid to the person who furnishes the information. If he does not pay the fine let the term of imprisonment be made in proportion, and let the estate pay the information. About a whole mile killing of deer. Make it a misdemeanor for any one man to kill more than two deer during November, and do not allow a pound of venison to be sold for the next five years. Give those fellows who are robbing our forests a good lesson. Have a good man appointed game warden, pay him a good salary, and let him the power to appoint a deputy in every township.

Sleepy Eye Herald: The Mankato Free Press is in pretty small business when it sends canvassers for job work into St. James, to take away from a woman who is trying to support her family by conducting the printing office of her late husband.

"Give Mr. Comstock a Chance." Moorhead News: The Duluth Herald takes us to task for remarks relative to the wants of Duluth and Col. Graves' test that Mr. Comstock would not be able to secure them all. The News makes an error in the amount of money Col. Graves wanted for the postoffice. The Herald calls us ungrateful, and we don't appreciate the vast importance of St. Marys canal. This is an unfair imputation. The News was one of the first papers to praise the appropriation, and commended it in the highest terms. The Herald says Duluth has asked for only \$10,000 for improving her harbor. We observe a letter from the secretary of war in which he estimates that the work will require \$2,350,582. The Herald intimates, The News said what did to shield Mr. Comstock from an attempt to take away from him by Col. Graves. Give Mr. Comstock a chance. Let him work things out in his own way. He usually gets there.

We Usually Attain It. Minneapolis Journal: A Duluth man has gone insane over the Tascoti mystery. Those Duluth people are forever reaching out after the unattainable and suffering the consequences. BITS OF STATE NEWS. The citizens of Aitkin are trying to organize a board of trade. At a recent meeting of the city council of Brainerd a motion was carried directing the mayor and chief of police to keep all children under 16 years of age off the streets after 9 o'clock p. m., unless accompanied by parents or guardians. A recent issue of the Manitoba Free Press contained seventy-five advertisements for teachers.

Every scholar in the Upper Duluth schools wants the books offered as premiums with The Herald. See extraordinary advertisement in this issue.

Urgent Need of a Real Estate Exchange. To the Editor of The Herald: Much is involved in valuations, opportunities and responsibility in the daily routine of the real estate business in this city, and considering the fact that failures to deliver in many transactions are daily occurring, leading to losses and disputes, leads your correspondent to see would accrue to seller and buyer by a real estate exchange and board of arbitration to which reference can be had other than to the courts, where parties none are better able than practical fair minded men, active in the routine of real estate life.

I doubt if there is another locality in the Union where the number of transactions and area of ground covered thereby in real estate is as large as here, and at the head of this lake, and the friction developed thereby is in proportion. An organization as indicated would benefit all and push our city forward another step. COMMUNION DIVISION.

CONDENSED NOTES.

Miss Rogers (Toledo), a young lady of Fort Townsend, Wash., will start from there on March 17, on a tour of the globe in an attempt to beat all previous records.

Edward D. O. Moore of Brooklyn, claims to have solved the problem of squaring the circle and has written a problem to prove it.

The Austrian sculptor, Friedrich Beer, in Paris, has discovered a process for making marble fluid and moulding it as bronze is moulded. The name of the marble thus treated is beryll. The new product costs little more than plaster and is especially well adapted to the ornamentation of houses.

Swiss engineers want to build a cable road to the top of the Jungfrau. The road would start from Stockholberg, at an elevation of 570 metres, and thence ascend in five sections of about 320 metres each to the summit, 4045 metres high. The possible route is about 10 miles long. An elliptical-shaped gray stone, probably 2 feet in length and about 6 inches in diameter, was received at the White House a day or two ago. It is stated that the stone was of the idol age, anterior to the arrival of the Spaniards in the western continent, and it was known to be over 300 years old.

In rain clouds indicates time. (1) inch of rain or melted snow equals ten (10) inches of snowfall. (2) FALLOUT. Sergeant Signal Corps.

DULUTH, Feb. 25.—Local forecast for twenty-four hours, ending 10 a. m. Feb. 26: Light flurries of snow, followed by fair weather; lower temperature.

WASHINGTON, Feb. 25.—Forecast for twenty-four hours, ending 3 a. m. Feb. 26: For Minnesota: Continued cold, northerly winds, fair weather. For North and South Dakota: Fair weather, variable winds becoming southerly, warmer Thursday night.

Everybody wants those sterling reference books—A Standard dictionary and encyclopedia. See Herald premium offer.

Now, Give Attention.

To the purification of your blood, for it is no secret the body is so susceptible to disease, that it is derived from a good medicine, as in March, April and May, Hood's Sarsaparilla is the people's favorite spring medicine. It stands unequalled for purifying the blood, curing eczema, salt rheum, etc., regulating the kidneys and liver, repairing nervous tissue, strengthening and invigorating the whole body, as well as checking the progress of acute and chronic disease, and restoring the allied parts to a natural, healthy condition. If you have never tried Hood's Sarsaparilla for your "spring medicine," do so this season.
